Job Description
Social Change Legal Assistant

About the Idaho Coalition

The Idaho Coalition identifies, supports, and thrives as an intergenerational, multi-racial, multi-ethnic, multi-cultural organization for the benefit of our team, our work, and our movement to end gender violence inextricably interconnected to multiple systemic oppression. Our focus is girls and women, and people who are gender oppressed who are impacted by or at risk of gender violence and systemic oppression.

Gender violence (sexual assault, domestic violence, dating violence, and stalking) does not occur in isolation. Gender violence is part of the continuum of gender oppression and is fueled by social injustice including patriarchy, sexism, racism, classism, homophobia, transphobia, able-ism, religious discrimination, and anti-immigrant sentiment. To end gender violence, we must address the larger systemic issues that generate and sustain it.

Shared Vision and North Star

Our shared vision is one of beloved communities with social equity and collective liberation for all human beings; where we see our own and each other’s full humanity and everyone has the ability to thrive and the dominant social narrative is one of interdependence, resilience, and regeneration.

Our north star is collective liberation, and is the embodiment of our vision, values, and purpose. Our movement must place historically marginalized communities at the center of our efforts. Focusing on historically marginalized communities, means ensuring that our actions, strategies, policies, and programs not only respect and reflect their experiences but also serve to advance their agency and leadership in their own lives and in the movement at large.

Organizational Values

- **Interconnection** – We understand our interdependence and the importance of authentic respectful relationships with one another and our earth.
- **Lead Boldly** – We cultivate an appetite for risk-taking, an openness to possibilities, and going into the unknown.
